In Touch With Your Lifestyle

Introducing the Symphony Touchscreen Interface

Introducing Symphony—the most sophisticated, exciting new advance in security and home control. After all, there's never been a keypad quite like it.

A blend of head-turning style and leading-edge technology, Symphony makes it easier than ever to take advantage of your security system features and convenient home control options. By simply following the graphics on the bright, full color touchscreen display, you can conduct a variety of everyday tasks with unprecedented ease.

For the ultimate in convenience, comfort and control, count on ADEMCO's Symphony Touchscreen Interface. Its intelligent design lets you add real security to your home and enjoy lifestyle-enhancing benefits you won't find anywhere else.

No other product
can touch it!

One-Touch Security Solution

Memorizing complicated keystrokes is now a thing of the past. Whether arming or disarming your system, bypassing zones or controlling lights, Symphony's easy-to-use touchscreen display makes it simple. Even the most advanced security system functions are easy, because Symphony's menu-driven prompts walk you through them step by step.

Easy Event Tracking

A press on the touchscreen is all it takes to access Symphony's event log, making it easier than ever to track your children's whereabouts and system activity.

Customized Control

Symphony lets you enjoy the comforts of home by providing easy, fingertip control for indoor and outdoor lighting, garage doors and select appliances. For added convenience, you can even program Symphony to turn on devices like lawn sprinklers at predetermined times or create an on and off lighting schedule for a "lived-in" look when you're away.

Point. Click. Personalize!

Using any computer with an Internet browser, you can easily set up customized homepages for every family member and receive valuable Internet information*—like the latest sports scores, news, daily horoscopes and e-mail notification.

*Additional services required. Internet content subject to change without notice.

Stay Connected... and Safe

With Symphony and a broadband connection you can control all system functions—including security system operation and lighting—remotely from any Web browser.* You can also conveniently arm, disarm or check the status of your security system from any touchtone telephone in the world.

*Remote control from a Web browser requires an always-on Internet connection (i.e., cable modem, DSL, etc.)

ADEMCO Group is the world's largest and most experienced manufacturer of electronic security systems and products, and we've taken your safety seriously for over 70 years. We're proud that millions of families continue to place their trust in us, and we know that your family will feel at home with our products, too. After all, your security comes from knowing you've made the very best choice for their protection.

For peace of mind,
insist on ADEMCO.
